## Do you have land drains or a culverted watercourse passing through your property?

If so, you will be classed as a riparian owner, and will be responsible for ensuring these pipes are kept well maintained to accept the proper flow of water.

Sometimes, drains and culverts can become obstructed, either due to a collapse or, more likely, a blockage.

Blockages can form over time, and generally will be made up of silt or sediment from upstream, or roots from nearby trees. When a blockage forms, a specialist contractor may be required to help - using high powered jets and root cutting blades to clear the blockage and get water flowing again.

Blockages are often found when flooding occurs, so it's a good idea to periodically check culverts to avoid the impacts of flooding and potentially large repair bills.

For further information contact North Worcestershire Water Management, Email [enquiries@nwwm.org.uk](mailto:enquiries@nwwm.org.uk) or Tel 01562 732191.

# Free Safe and Well Check

## What is a Safe and Well Check?

A Safe and Well Check is a FREE home safety visit that is tailored to an individual's needs. All residents over the age of 70 years are automatically eligible for a visit. Vulnerable residents are also eligible.

The visit, which is conducted by Hereford & Worcester Fire and Rescue Service, includes a home safety check to help reduce the risk of fire in the home, including the checking and fitting of smoke alarms where required. This includes alarms suitable for those with a hearing impairment and giving advice on a fire escape plan.

It will also identify any health and care needs that require signposting to local services to help ensure safety and wellbeing.

A Safe and Well Check maximises the opportunity to help individuals stay safe and independent and include advice on the following:

- Fire safety in the home
- Falls prevention
- Winter Warmth
- Social Isolation and loneliness

# Preventing burglars from stealing a piece of you Christmas

Now more than ever we will all be spending more time at home which may mean purchasing games console, computers, tablets, games and other expensive items to keep everyone occupied at home. This means there are even more items to keep safe. The best way to do this is to follow our tips for keeping your home secure this festive period.

- Mark your property. We hold special bike marking events which are worth looking out for if you have got a new bicycle for Christmas. You can mark all your gifts including jewellery, tools etc and can place a sticker on your window to state that your property is parked. Marking your stuff makes it difficult for thieves to sell on, and so less desirable.
- Register all of you good on the Immobilise Property Marking Register.
- Avoid posting photos of your gifts and purchases on social media and be careful not to identify your address in your posts.
- If you are going out for the whole of Christmas day to form a bubble as per the regulations, ask a trusted neighbour, family member or friend to keep an eye on your home, and do the same for them – don't

forget to leave your lights on a timer switch to make it look like someone is at home in the evening.

- Try and place your Christmas tree out of sight of street fronted windows
- When Christmas is all over don't leave the boxes to your valuable gifts out by the rubbish bin, this lets burglars know what you have in your home. Take them directly to your local household recycling centre or think about keeping the broken-down boxes in a garage or loft
- Don't keep presents in garden sheds etc and allow someone else to do their shopping at your expense.
- Do not leave house or car keys near to your letterbox.

Inspector Ram Aston said: "Burglars often target homes specifically and although we will still be patrolling and are here to help you, we urge you to take these steps to protect your home.

"If you leave your home for the day make sure the house is locked up before you go and the burglar alarm is set. Right now the advice during the pandemic is to keep a window open for ventilation but it is really important you take a couple of minutes to check these are closed before leaving your house. Hide any valuable items from view from the outside and don't leave anything in the garden that could potentially be used to gain entry into your home. Be mindful of where you store your wheelie bin too and consider if it could be used for someone to climb on and access an upstairs window or used to climb over into the garden. If you're leaving the car at home and have a garage, park it in the garage while you're away rather than on the drive and if you've got gates close and lock them with a good quality lock.

"If you are victim of a burglary and your property is stolen, if the items are Smart Water marked we can ensure they are returned to you if they are found. This is particularly important with high value items such as games consoles, computers and bikes. It is also incredibly useful to take photos of your valuables so if they are taken you can supply us with an accurate image, This is particularly helpful with jewellery and family heirlooms."

For more advice on keeping your home safe from burglars visit the West Mercia Police website.

# Be Cyber Safe this Christmas

## Shopping online for gifts?

Remember to research retailers before making your purchase

If an offer seems too good to be true it probably is

Consider paying with a credit card or PayPal for greater buyer protection

Keep your anti-virus software up-to-date

Use strong passwords that differ across websites

Visit [www.ncsc.gov.uk/cyberaware/home](http://www.ncsc.gov.uk/cyberaware/home) for more advice on how to stay safe online this Christmas.

## Nominated Neighbour Scheme

This is a free scheme to deter cold callers and rogue traders and help vulnerable and elderly people feel safer in their own homes.

It is funded by the West Mercia Police and Crime Commissioner to help reduce doorstep crime.

Nominated Neighbour uses bright yellow window stickers to show potential house callers that they will only be seen if accompanied by a known and trusted person after their identity has been verified by that person.

All it takes is a neighbour, family friend or family member to agree to be nominated and have callers directed to them.

The scheme deters scam callers, who will not want their identity to be checked. In addition to the window sticker, a pack containing useful information on keeping safe is also provided.

To join the scheme or if you have questions, contact the Redditch and Bromsgrove Community Safety Team at [CommunitySafety@bromsgroveandredditch.gov.uk](mailto:CommunitySafety@bromsgroveandredditch.gov.uk) or call 01527 534187.

## New 159 fraud hotline launched to counter threat

If you think someone is trying to trick you into handing over money or personal details...

...**Stop, hang up and call 159** to speak directly to your bank.

Last year criminal gangs stole over £470m by pretending to be your bank or other service provider.

159 is the memorable, secure number that contacts you directly to your bank if you think you're being scammed.

159 works in the same way as 101 for the police or 111 for the NHS. It's the number you can trust to get you through to your bank, every time.

159 will **never** call you. **Only a fraudster** will object to you calling 159.

[www.fvca.org.uk](http://www.fvca.org.uk)  
[admin@fvca.org.uk](mailto:admin@fvca.org.uk)

## **When should I call 159?**

Call 159 if:

- Someone contacts you saying they're from your bank – even if they are not suspicious
- You receive a call asking you to transfer money or make a payment – even if it seems genuine
- You receive a call about a financial matter and it seems suspicious

Remember, 159 will never call you. But you can rely on 159 to get you through to your bank.

## **Who is behind 159?**

159 has been set up by banks and telephone companies who want to fight fraud. It's a pilot scheme at the moment. The following banks are part of it:

- Barclays
- Lloyds (including Halifax and Bank of Scotland)
- NatWest (including Royal Bank of Scotland and Ulster Bank)
- Santander
- Starling Bank

That covers over 70% of UK primary current account holders.

## **Will it definitely work on my telephone?**

Almost all major consumer telephone companies are participating, and over 80% of UK mobiles and landlines will be able to use 159 at the outset. We are working to grow this reach to 100% during the pilot.

The telephone companies are:

- BT, including EE and Plusnet
- Gamma

[www.fvca.org.uk](http://www.fvca.org.uk)  
[admin@fvca.org.uk](mailto:admin@fvca.org.uk)

- O2, including giffgaff
- TalkTalk
- Three
- Virgin Media
- Sky

## What happens if 159 doesn't work, for any reason?

You should contact your bank in the normal way, using the number on your bank card.

## How much does it cost to call 159?

Calling 159 will cost the same as a national rate call; usually part of the included minutes in most phone tariffs.

## What's the idea behind the 159 pilot?

159 is a pilot scheme – the idea is to collect evidence to show that calling 159 helps fight fraud. Then we want to make 159 a universal number – available on all phones and for all banks.
